## MODIFICATIONS TO THE INMATE INCIDENT REPORT IN INSTITUTIONS CALENDAR 2001

Beginning with Calendar Year 2001, modifications have been made specifically to Tables 3 and 4. These tables pertain to assault/battery incidents.

The assault/battery incidents increased from 4,491 in 1996 to 6,225 in 1997. According to Institution Division staff, the increase in assaults appears to be mostly an increase in the reporting of assaults and not an actual increase in assaults.

Because of the increase in the reporting of assault/battery incidents, it is impossible to compare 10 years (1992 – 2001) and obtain an accurate picture of the increase.

Therefore, the following changes were made to the inmate incident report:

- **Table 3** changed from reporting 10 years of number and rate of incidents involving assault/battery on inmates, staff and visitors to the current year only.
- **Table 4** changed from reporting 10 years of number and rate of incidents involving assault/battery on staff to the current year only. **The number of staff assaulted is in the footnote of the table.**
- **Table 5** was deleted because the information **is now reported on Table 4.**
- **Table 6**, the number and rate of incidents involving assault/battery on inmates by institution **is now Table 5.**
- **Table 7**, inmates fatally injured during assault/battery or escape by institution **is now Table 6. Also, the table format has changed slightly.**
- **Table 8**, the number of persons fatally injured during assault/battery or escapes by the cause of death **is now Table 7.**
